As you cruise the marine park there will be a stop to visit the Victoria Settlement ruins. Established prior to Darwin as a military outpost by the British, this site represents the third failed attempt at settlement in northern Australia. After surviving for 11 years between 1838 and 1849 it was abandoned. Serve as a reminder of the early colonists.

Depart the settlement and enjoy a slow journey back to camp stopping along the way to spot marine life.

Return to camp this afternoon where you can explore the nearby beaches and creek systems, try your luck at fishing or simply enjoy the solitude while reading a book from a hammock overlooking the ocean.

Continue on via the northern beaches, commonly used as turtle nesting areas and covered in a wide range of shells. Low tide provides opportunities

to explore exposed coral reefs and rock pools which are home to a variety of marine life.

After lunch you will have an opportunity to go hunting for mud crabs using traditional Aboriginal methods. Learn how to hunt and gather these local delicacies before having a go yourself.

Later in the afternoon visit the Park's Cultural and Information Centre before going back to camp.
